PREFACE

The Annual Report of the Trade of Canada for the fiscal year ended March 31, 1921, was compiled in the External Trade Branch, Dominion Bureau of Statistics, from revised data supplied by the Department of Customs and Inland Revenue, under section 22 of the Statistics Act, 1918.

The Report is arranged in three sections, as follows:—

(1) **SUMMARY TABLES:** The first twenty-five statements are of an introductory and summary character, giving (a) a general historical review of Canadian trade back to Confederation; and (b) an analysis from various points of view of recent or current trends, generally over a five-year period.

(2) **DETAILED TABLES:** The detailed tables include the current statistics of all the items of the trade classification, with numerous totals and recapitulations of groups and classes. The general arrangement of the items is on the "Component Material" basis, adopted by the Bureau in 1920 as the main principle of classification. The tables are two in number. The first contains detailed information respecting all commodities imported into Canada, with countries whence imported, for the fiscal years 1917 to 1921, while the figures for 1921 are expanded to show the amount of each commodity imported from each country under the general, preferential and treaty tariffs, respectively, with the amount of duty collected under each heading. The second statement gives details of all commodities of Canadian origin exported, with the country of destination, for the years ended March 31, 1917 to 1921, also the exports of foreign commodities for 1920 and 1921.

(3) **SPECIAL ANALYSES:** Two special analyses are added, showing for the year ended March 31, 1921, (a) the imports and exports of Canada by main groups and degree of manufacture, classified according to "Origin"; and, (b) the imports and exports by main groups classified according to "Purpose". These analyses appeared for the first time in the Annual Trade Report for 1920.

The format of the Report for 1921 is identical with that for 1920, except that two new tables arranged on the "Component Material" principle of classification replace former tables Nos. 5 and 6, which presented the exports of Canada from 1868 to 1920, according to the old classification. The new table No. 5 is devoted to Imports, and table No. 6 to Exports.

The report for 1921, as for 1920, is bilingual, the French translation appearing with the English text, thus obviating the necessity of issuing two reports.

The Report was compiled under the direction of Mr. W. A. Warne, B.A., Chief of the External Trade Branch, and Mr. Ernest Green, Assistant Chief.

PRÉFACE

Le Rapport Annuel sur le Commerce du Canada, pour l'exercice budgétaire clos le 31 mars 1921, a été compilé par la section du Commerce Extérieur du Bureau Fédéral de la Statistique, au moyen des données révisées qui lui ont été communiquées par le ministère des Douanes et du Revenu de l'Intérieur, coopération établie par l'article 22 de la Loi de la Statistique de 1918.

Ce rapport est disposé en trois parties, savoir:—

(1) TABLEAUX D'ENSEMBLE: Les vingt-cinq premiers tableaux constituent une revue rétrospective; ils contiennent (1) un relevé des échanges commerciaux du Canada, en remontant jusqu'à la Confédération et (b) une analyse, sous différents angles, des fluctuations actuelles et récentes, couvrant généralement une période de cinq ans.

(2) TABLEAUX DE DÉTAIL: Les tableaux détaillés contiennent les statistiques courantes de toutes les marchandises sans exception, avec de nombreux totaux récapitulatifs, par groupes et par classes. En principe, ces marchandises sont classifiées "selon la substance constituant l'élément principal", système adopté par le Bureau en 1920, comme base de classification. Ces tableaux sont au nombre de deux; le premier contient tous les détails des marchandises importées au Canada, avec indication des pays d'où elles sont importées, pendant les années fiscales de 1917 à 1921, les chiffres de 1921 étant présentés de manière à spécifier la quantité de marchandises importées de chaque pays, sous les tarifs général, préférentiel et de traité, ainsi que le montant des droits de douane perçus dans chaque cas. Le second tableau relate l'exportation de toutes les marchandises d'origine canadienne, ainsi que les pays de destination, pendant les exercices terminés le 31 mars de 1917 à 1921, ainsi que les réexportations de marchandises étrangères en 1920 et 1921.

(3) ANALYSES SPÉCIALES: Deux tableaux analytiques se rapportant à l'exercice terminé le 31 mars 1921 indiquent (a) les importations et exportations du Canada, par groupes principaux et degré de fabrication, classifiées "selon leur source ou origine" et (b) les importations et exportations par groupes principaux classifiées "selon leur usage et destination". Ces analyses ont paru pour la première fois dans le rapport annuel de 1920.

Le format du rapport de 1921 est identique à celui de 1920, si ce n'est que deux tableaux nouveaux, établis selon le principe de classification de "l'élément principal", remplacent les anciens tableaux nos 5 et 6 qui étaient consacrés aux exportations du Canada depuis 1868 jusqu'à 1920, sous le système de l'ancienne classification. Le tableau 5 se rapporte aux importations et le tableau 6 aux exportations.

Comme celui de 1920, le rapport est bilingue, la traduction française suivant immédiatement le texte anglais, ce qui évite la nécessité de publier deux ouvrages distincts.

Le rapport a été compilé sous la direction de M. W. A. Warne, B.A., chef de la section du Commerce Extérieur et de M. Ernest Green, chef-adjoint.

EXPLANATORY NOTES.

In this report, throughout, the term "Imports" means "Imports for Consumption."

The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "Canadian Produce" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Foreign Produce" applies to the exports of foreign goods which had been previously imported.

The value of "Canadian Produce" is its value at the time of exportation at the ports of Canada whence shipped.

The value of "Foreign Produce" is the actual cost of such goods.

In this report, the tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was *entered inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The initials N.E.S. mean "not elsewhere specified."

The initials N.O.P. mean "not otherwise provided for."

The expression "ton" means two thousand pounds, and "cwt." one hundred pounds.

SPECIAL NOTE.

Prior to 1920 "Silver bullion in bars, blocks, ingots, drops, sheets and plates, unmanufactured," was included in "Coin and Bullion." Beginning with the fiscal year 1920 it is regarded as merchandise. In order to maintain the value of these tables for comparative purposes, the figures have been revised in accordance with this new arrangement. Consequently, the tables in this report will not agree in their totals of "Merchandise" and "Coin and Bullion" with similar tables published in Annual Trade Reports prior to 1920.

NOTES EXPLICATIVES.

Partout où le mot "importations" se trouve dans ce volume, il signifie "marchandises importées pour la consommation."

Les mots "importées pour la consommation" sont l'expression technique adoptée dans le service des douanes, et ne signifient pas que ces marchandises sont nécessairement employées au Canada, mais qu'elles sont devenues la propriété de l'importateur qui a payé les droits sous cette rubrique.

La valeur spécifiée pour les marchandises importées est le prix réel et exact qu'elles commandent sur les principaux marchés du pays d'où elles viennent et au moment de leur exportation directe de ce pays au Canada.

Les mots "produits canadiens" couvrent tous les articles importés qui ont été modifiés dans leur forme ou augmentés de valeur par l'industrie canadienne comme le sucre raffiné au Canada provenant du sucre brut importé, la farine extraite de blé importé, et les articles construits ou fabriqués avec des matériaux importés.

Les mots "produits étrangers" désignent tous les articles importés de pays étrangers, puis réexportés.

La valeur des "produits du Canada" est la valeur réelle à la date de leur exportation, aux ports du Canada d'où ils sont expédiés.

La valeur des "produits étrangers" est le coût effectif de ces marchandises.

Les tableaux des importations et des exportations aux différents ports d'entrée qui figurent dans ce rapport, indiquent que ces marchandises sont passées par ces ports, soit à l'entrée, soit à la sortie, mais ne signifient pas qu'elles aient été consommées dans ces ports, ni qu'elles y aient eu leur origine.

Les initiales "n.s.a." signifient "non spécifiés ailleurs."

Les initiales "n.a.e." signifient "non autrement énumérés."

L'expression "tonne" signifie deux mille livres, et "qtl" cent livres.

OBSERVATION

Antérieurement à 1920, "l'argent en barres, saumons, lingots, lames, feuilles ou plaques, non ouvré," se confondait avec "monnaies et lingots," mais il est considéré comme une marchandise depuis le commencement de l'exercice 1920. Dans le but de conserver la possibilité de comparaison des tableaux, les chiffres ont dû être révisés, conformément au nouvel état de choses. C'est ce qui explique que les totaux des "Marchandises" et ceux des "Monnaies et lingots" que l'on trouvera dans les tableaux du présent rapport ne concordent pas exactement avec les chiffres donnés dans les rapports antérieurs à 1920.

Notes—The above table of imports by Provinces indicates that merchandise of the values stated was entered inward at ports located in the several Provinces, but does not imply that the imports were all for consumption in the Province in which entry was made.

(a) Six months ended June 30. (b) Nine months ended June 30. (c) Nine months ended March 31. *Merchandise only.

Notes—Le tableau ci-dessus des importations, par province, indique que des marchandises aux valeurs indiquées sont arrivées aux ports d'entrée dans les diverses provinces, mais ne signifie pas que ces importations ont été faites pour consommation dans la province où l'entrée a eu lieu.

(a) Six mois terminés le 30 juin. (b) Neuf mois terminés le 30 juin. (c) Neuf mois terminés le 31 mars. *Marchandises seulement.
